The purpose of such reevaluation is to confirm or change the numerical value based upon the average performance of Provider with respect to the applicable Service Level during such three (3) month period. Company and Provider may agree to adjust the Service Levels at this time.

B. The Parties agree that the Service Levels confirmed or changed in accordance with Section 3.1A above will not be less than those levels reasonably and consistently achievable with the systems and environments used to provide the Services if used in accordance with the practices and standards used in well-managed operations performing services similar to the Services

Where Prevalent fails to attain the 99.8% service level, rather than the Service Credit set forth above Subscriber may elect to demand a pro-rata refund based upon the number of days outside of the Service the 99.8% service level and the refund will be determined on a pro rata basis using the annual Service Subscription fee stated in the Prevalent sales Quote.
